Experience

JAN 2024 – PRESENT

Freelance Front-End Developer

- Developed multiple websites and web apps using React with a focus on clean UI and UX.
- Created personal projects including e-commerce layouts and blog interfaces.
- Improved website responsiveness and optimized component structure.
- Integrated REST APIs and handled state management using Redux Toolkit.

JUN 2023 – JUL 2024

Front-End Developer | seometta | Cairo, Egypt

- I developed responsive website interfaces using ReactJS and Next.js, writing clean and easy-to-maintain code.
- I converted Figma designs into pixel-perfect web pages, improving the user experience.
- I integrated REST APIs for data display and handling various states using the Redux Toolkit.
- I resolved technical issues and improved website speed and usability across different devices and browsers.
